

Zoestra Hammer

zoestra.hammer@gmail.com
Seattle, WA - University District

zoestrahammer.com

Recent B.S. Computer Science graduate with hands-on experience in game development. Seeking an entry-level role in software engineering or game development where I can apply strong programming fundamentals, creative problem-solving, and a passion for building interactive tools.

EDUCATION

North Seattle College – Seattle, WA

B.S. Computer Science (Graduated June 2026)

Transfer from Seattle Central College (A.A. 2024)

PROJECTS

Worldbuilding Simulator (Senior Capstone) | Godot, GDScript, C#

- Project Architect Leader for a team of 2 other devs
- Developed a GPU-driven terrain pipeline using layered polygon masks for vertex displacement to create LOD scaling without loss of detail from rasterization.
- Designed a narrative-binding framework exporting story and location data to Markdown for Obsidian sync, enabling external editing and LLM workflows without in-engine AI.

Game Jam Prototypes | Godot & Unity

- Participated in 3 jams as Project Leader, Developer, and Level Designer.
- More information and detailed writeups for my projects can be found zoestrahammer.com

SKILLS

- Programming: Python, Java, C#, GDScript, SQL
- Game Engines: Godot, Unity
- TTRPG & Narrative Design: GameMaster, 2D cartography (world maps & battlemaps), worldbuilding, campaign writing (D&D 5e, Cyberpunk Red)
- Hardware & Tools: Fusion360, OnShape, Blender, KiCad, FDM/MSLA 3D Printing
- Music & Audio: Composition and production in Ableton Live; theatrical sound/lighting design

WORK EXPERIENCE

Stagehand

- IATSE Local 7 & 15 (Denver & Seattle) + James Thomas Productions (2018) 2017 – 2024
 - Designed lighting plots and ran light board for local small shows.
 - Worked as lighting electrician, audio technician, and general help. Worked at height. Forklift and MEWPS certified.
